

06 April 2020

Dear Customer,

As a responsible global business, LECO Corporation is closely monitoring the developing of the COVID-19 situation as it unfolds on a daily basis.

We, as LECO Africa, want to ensure you of our 100% commitment and support during this lockdown period.

Where service calls are requested and we are able to support, we are fulfilling these in accordance with local government or health authority restrictions or guidance. In the event of any impact to our existing service level commitments, we will communicate this to customers

LECO Africa service various food testing laboratories, coal laboratories, water testing laboratories and forensic laboratories – all that form part of essential services.

During this lockdown period, we can still supply the operating laboratories of spares and consumables.

Please visit our website to view our contingency statements regarding Covid-19.
